Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 9 a.m. Tuesday, November 27, in the third floor conference room of the Kansas Insurance Department, 420 S.W. 9th, Topeka, to consider the adoption of proposed changes in an existing rule and regulation.

This 60-day notice of the public hearing shall constitute a public comment period for purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to Rebecca Sanders, Kansas Insurance Department, 420 S.W. 9th, Topeka, 66612-1678. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Rebecca Sanders at (785) 296-7811.

Copies of the regulation and the economic impact statement may be obtained by contacting Rebecca Sanders. A summary of the regulation and its economic impact follows.

K.A.R. 40-1-48. Risk-based capital instructions for managed care organizations. This regulation adopts by reference the National Association of Insurance Commissioner's risk based capital reports, including overview and instructions, for managed care organizations. Risk based capital is a method of measuring the minimum amount of capital appropriate for an insurance entity to support its overall business operation in consideration of its size and risk profile. Risk based capital standards for health organizations were enacted in Kansas in the year 2000. This regulation sets out the requirements and format of the risk-based capital report that all domestic health organizations are required to file each year. One set of instructions is for health maintenance organizations and the other set of instructions is for hospital, medical and indemnity companies.

The economic impact on companies, if any, is positive because the reports that are required to file in Kansas are uniform formats as established by the NAIC. NAIC rules, regulations and instructions are promulgated after input from the insurance industry and regulators nationwide. Companies will generally be familiar with the format and requirements of these reports.

There will be no economic impact on the Kansas Insurance Department or other governmental agencies.

Department of Agriculture**Request for Comments on Proposed
Special Local Need Registration**

Notice is hereby given that FMC Corporation has requested a Special Local Need (SLN) registration, Section 24(c) FIFRA, to allow for later growing season use of Aim® 40DF (EPA Registration Number 279-3194) on field corn and seed corn up to a maximum crop height of 48 inches. Aim® is a contact herbicide formulated with 40 percent of the active ingredient Carfentrazone-ethyl. Letters supporting the request have been received from the Kansas Corn Growers Association, United Suppliers, Inc., and Kansas State University.

Aim® is currently registered by the Environmental Protection Agency for use on corn until the 8 leaf collar growth stage. The sole objective of this request is to extend the time frame for treatment past the 8 leaf collar growth stage (when corn is around 32 inches tall) to when the treated corn plants are 48 inches tall. Research trials show that this herbicide will aid in providing effective control or suppression of many of the significant weed pests that occur in Kansas corn fields after the 8 collar growth stage. Post directed application with drop nozzles is required and a crop oil concentrate, methylated seed oil or organosilicone surfactant must be added to the spray mixture.

Corn growers are sometimes faced with weather conditions that delay intended applications of postemergence herbicides. Without effective and timely treatment, the escaping weeds will lower crop yields and interfere with harvest.

FMC Corporation has completed its residue and efficacy testing for this proposed use and a request for amendment of the existing federal registration is currently under review by the EPA. Efficacy and residue data have been provided to the KDA in support of the proposed SLN registration. These data appear to support the proposed preharvest intervals of 45 days for grain and forage.

Anyone wanting to present written comments, data or other evidence in support of or in opposition to the proposed SLN registration may do so on or before October 19. Prepared documents or data should be addressed to Gary Boutz, Pesticide and Fertilizer Program, 109 S.W. 9th, 3rd Floor, Topeka, 66612-1281.

State of Kansas**Agricultural Remediation Board****Notice of Hearing on Proposed
Administrative Regulations**

A public hearing will be conducted at 10 a.m. Friday, November 30, in Room 108 of the Landon State Office Building, 900 S.W. Jackson, Topeka, to consider the adoption of the proposed regulations of the Kansas Agricultural Remediation Board.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit comments prior to the hearing to the administrator, 816 S.W. Tyler, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Mary Jane Statelman at (785) 440-0356 or 1-800-766-3777. Handicapped parking is located at the south end of Landon State Office Building, and the north entrance to the building is accessible to individuals with disabilities.

These regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and their economic impact follows.

K.A.R. 125-1-1. Definitions. This regulation defines terms contained in the remediation regulations. There is no economic impact to either the private or the public sector.

K.A.R. 125-1-2. Application. This regulation establishes that eligible persons who have incurred corrective action costs after July 1, 1997, may seek reimbursement of these costs. Anyone who incurred corrective action

costs prior to the effective date of this regulation must submit the claim within two years after September 1, 2001. There is no economic impact to the private or public sector.

K.A.R. 125-1-3. Application process. A completed application shall be eligible for review and possible funding for 12 months following administrator's receipt of the completed application. This also sets forth that the board will meet on a quarterly basis and will issue a letter within 30 days following the board's decision on an application. The applications will be ranked by the board based on the risk to human health and environment that each site poses. There is no economic impact to the private or the public sector.

K.A.R. 125-1-4. Multiple eligible persons. This regulation requires multiple eligible persons to apply separately to the board. There is no economic impact to the private or the public sector.

K.A.R. 125-1-5. Appeal process. This allows the applicant to appeal a denial of the reimbursement application to seek reconsideration of the decision by the board. It establishes that the board will issue a final order at or before the next board meeting following the receipt of the appeal. The final order can be appealed to a mediator. There is no significant economic impact to the private or the public sector.

K.A.R. 125-1-6. Eligible corrective action costs. This is a list of the type of costs that the board considers to be eligible corrective action costs. The list is not exhaustive nor does it automatically entitle the person to be reimbursed for these costs. There is no economic impact to the private or the public sector.

K.A.R. 125-1-7. Ineligible costs. This is a list of the types of costs that the board considers to be ineligible for reimbursement. The list is not exhaustive and the board retains all authority to decide the eligibility of any and all costs presented for reimbursement. There is no significant economic impact to the private or public sector.

K.A.R. 125-1-8. Payment of corrective action costs. This establishes what documentation is needed prior to the board reimbursing the person for the corrective action costs. There is a slightly different standard for emergency situations in recognition that the corrective action taken at the time may not be pursuant to an order by KDHE. However, no reimbursement will be made in cases where there is insufficient information or where the applicant or the applicant's representative or agent is involved in an administrative, civil or criminal case involving the site. There is no significant economic impact to the private or the public sector.

K.A.R. 125-1-9. Conflict of interest. If a board member has a direct financial or employment interest relating to application or has a substantial interest in the eligible person whose application is before the board, the board member shall refrain from voting on the application.

Copies of the regulations and their economic impact statements may be obtained by contacting Mary Jane Statelman, Kansas Agricultural Remediation Board Administrator, at the address and phone number above or by e-mail at mjs@karb.org.

State Corporation Commission

Notice of Hearing on Proposed
Administrative Regulations

A public hearing on various administrative regulation adoptions will be conducted at 2 p.m. Tuesday, November 27, in the first floor hearing room of the State Corporation Commission offices, 1500 S.W. Arrowhead Road, Topeka. The regulations under consideration are proposed revisions of the Kansas motor carrier regulation, K.A.R. 82-4-3, and the new Kansas motor carrier regulation, K.A.R. 82-4-26a.

The proposed revisions to K.A.R. 82-4-3 and the new regulation K.A.R. 82-4-26a are being simultaneously proposed on a temporary and a permanent basis. The public hearing will address only the permanent versions of these regulations.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to Paula Lentz, Assistant General Counsel, State Corporation Commission, 1500 S.W. Arrowhead, Topeka, 66604. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing.

Any person requiring accommodation under the Americans with Disabilities Act should give notice to the commission at least 10 days prior to the hearing date by contacting the commission at (785) 271-3140 or 1-800-662-0027.

Copies of the regulations and the economic impact statement may be obtained by contacting Vicki Berg at (785) 271-3225. A summary of the regulations and the economic impact statement follows.

The proposed revisions to **K.A.R. 82-4-3** will exempt from safety regulation by the commission those who engage in the occasional transportation of personal property by private motor carrier that is not for compensation and is not in the furtherance of a commercial enterprise. The revisions to K.A.R. 82-4-3 also will adopt the safety fitness standards of 49 C.F.R. Part 385, to the extent intrastate carriers are subject to the Code of Federal Regulations adopted therein. The revisions to K.A.R. 82-4-3 also will reflect the most recent Code of Federal Regulations Parts available.

The new **K.A.R. 82-4-26a** will exempt those who engage in the occasional transportation of personal property by private motor carrier that is not for compensation and is not in the furtherance of a commercial enterprise from the requirement of obtaining a certificate or permit from the commission in order to operate.

No significant economic impact on other governmental agencies is anticipated as a result of the changes to K.A.R. 82-4-3 or the enactment of K.A.R. 82-4-26a.

Regarding the economic impact on private entities or individuals, because K.A.R. 82-4-3(d) and K.A.R. 82-4-26a will return those engaging in occasional transportation of personal property by private motor carrier that is not for

compensation and is not in the furtherance of a commercial enterprise to the position they were in prior to July 1, 2001, when a revision to the definition of a private motor carrier in K.S.A. § 66-1,108 went into effect, no economic impact is anticipated. With regard to the adoption of the safety fitness standards of 49 C.F.R. Part 385, some economic impact on private entities or individuals is anticipated, but it is difficult to quantify at this time. Operating under an unsatisfactory rating will subject an intrastate carrier to a fine of \$100 to \$5,000, depending on the circumstances, pursuant to the commission's penalty statutes. Requesting a change in a safety rating will require compliance with 49 C.F.R. Part 385 processes, which may take some time and may involve the retention of an attorney. Failure to file a Motor Carrier Identification Report will subject the motor carrier to a fine by the commission from \$100 to \$1,000 or \$5,000, depending on the circumstances, pursuant to the commission's penalty statutes. Finally regarding the update of K.A.R. 82-4-3 to reflect the most recent Code of Federal Regulations Parts available, no economic impact is anticipated.

However, the filing office shall be under no obligation to communicate this information to a filer or remitter. The responsibility for the legal effectiveness of the filing shall rest with each filer and remitter, and the filing office shall bear none of this responsibility. (continued)

(e) If, within 30 days of the date that the record is rejected, a secured party or a remitter demonstrates to the filing officer that the UCC record that was refused for filing should not have been refused, the UCC record shall be filed by the filing officer with a filing date and time reflecting the date and time the document would have received, if it had been accepted when originally tendered for filing. A filing officer statement shall also be filed by the filing officer indicating that the effective date and time of filing are the date and time the UCC record was originally tendered for filing, and setting forth the date and time. If the filing officer's procedures do not include recording the filing time, the filing time shall be deemed to be 5:00 p.m. (Authorized by L. 2000, Ch. 142, §97; implementing L. 2000, Ch. 142, §87; effective Oct. 12, 2001.)

This notice shall include a brief description of the reason for refusal to accept the record. (b) An amendment that changes a debtor's name shall not affect the status of any debtor or secured party, except that the related initial financing statement and all UCC records that identify the initial financing statement shall be cross-indexed in the UCC information management system so that a search under either the debtor's old name or the debtor's new name will reveal the initial financing statement and related UCC records. This amendment shall affect the rights only of its authorizing secured party.

(c) An amendment that changes the name of a secured party shall not affect the status of any debtor or any secured party, but the new name shall be added to the index as if it were a new secured party of record.
